WINGS OF HOPE MOMENTUM REPORT

MOMENTUM

From Vision to Momentum

ISSUE 001 | JULY 2026

THE FIRST 30 DAYS

One Month. Extraordinary Momentum.

July marked the point at which Wings of Hope moved from vision into visible action. Following our pre-launch on 2 July, we began connecting government, diplomatic, aviation, education and community leaders around a shared proposition: opening credible pathways into aviation for young people who might otherwise be left behind.

Our first cohort of 60 youths commenced Microsoft AI Fluency learning during the month. At the same time, regional conversations and the formation of our Founding Advisory Council began extending the initiative's reach and capability.

This report records momentum already created—and the work now required to convert that momentum into training, certification, industry exposure and employment outcomes.

DR MARIE ANG
Executive Director, Wings of Hope

Dr Marie Ang addressing guests at the Wings of Hope pre-launch, 2 July 2026.

First Microsoft AI learning cohort	At the 2 July pre-launch	Government to regional networks	Founding Advisory Council established

Activity and engagement recorded through 31 July 2026.

MOMENTUM IN ACTION

Credibility built through real engagement.

From government and diplomacy to education, community and regional aviation networks, the first month established relationships that can support future pathways for young people.

GOVERNMENT

MOS Gan Siow Huang addressing guests at the Wings of Hope pre-launch on 2 July 2026.

DIPLOMATIC

Discussions at the Embassy of Egypt explored youth development, aviation learning opportunities and Haikou participation.

INTERNATIONAL

H.E. Madiepetsane Charlotte Lobe expressed keen interest in supporting Wings of Hope, including the Haikou engagement.

EDUCATION PATHWAYS

At the Raffles Design School graduation, early discussions explored wider pathways for graduates, including aviation hospitality and operations.

COMMUNITY

Engagement with Tzu Chi leadership strengthened the initiative's community and youth-development connections.

REGIONAL

Regional engagement in Shanghai connected SIAEi representatives with the Shanghai Global Aerospace Industry Research Institute.

BUILDING THE FUTURE

Momentum must now become opportunity.

The next phase is focused on converting early relationships into practical pathways—training, certification, industry exposure and employment outcomes for young people.

NEXT-PHASE PRIORITIES

01 **EXPAND ACCESS**

Extend AI learning and workforce-readiness opportunities beyond the first cohort.

02 **BUILD PATHWAYS**

Develop aviation training, certification and structured industry-exposure opportunities.

03 **MOBILISE INDUSTRY**

Secure mentors, learning journeys, internships and employer pathways.

04 **GROW REGIONAL REACH**

Deepen ASEAN and Friends engagement, including planned Haikou participation.

PARTNER WITH WINGS OF HOPE

Help turn access into outcomes.

SPONSOR a youth pathway

HOST an industry learning experience

OFFER mentorship, internship or employment

OPEN regional, diplomatic or education connections
